ADDING VALUE TO YOUR UC SOLUTIONS

Jabra partners with the Cisco Developer Network program to offer a wide range of Jabra audio devices that are easy to install and use. These integrate seamlessly with Cisco Unified IP Phones and Cisco Unified Communication Clients. Jabra headsets deliver an enhanced, hands-free experience that increases mobility, collaboration and simple communication for Cisco users. Superior comfort combined with exceptional audio performance enhance productivity and user satisfaction.

Jabra headsets support Remote Call Control enabling users to answer and end calls, adjust the volume or mute the microphone directly from the headset up to 150 m / 450 ft away from their desks!

"We now have happy employees and customers because the sound quality is always perfect."

Fredrik Prim, Product Manager, Brightpoint Sweden AB

[10] Jabra MOTION UC and Jabra SPEAK 510 when connected to Class 1 device
[11] Jabra UC VOICE 750 only

REMOTE CALL CONTROL WITH CISCO SOFTPHONES
Jabra PC Suite provides call control for Cisco Unified Personal Communication (CUPC), Cisco Unified Communication Integration for Microsoft® Office Communicator (CUCIMOC), Cisco Unified Communication Integration for Microsoft® LYNC™ (CUCILync) and Cisco WebEx Connect 7.1.1 or above. In addition, Cisco IP Communicator 7.0(3) and later incorporates a "Plug and Play" driver for Jabra USB headsets and speakerphone.

Note that – CIPC 7.0(2) and less still require Jabra PC Suite for Remote Call Control functionality. This can be downloaded for free at www.jabra.com/PCsuite.

The Jabra products shown above have tested compatible with specific Cisco Unified IP Phones and/or Cisco Unified Communication Clients. For more information go to www.jabra.com/cisco
